Lonmin at a Glance

Lonmin Plc (Lonmin, the Group or the Company) is a primary producer of Platinum Group Metals (PGMs).

These metals are essential for many industrial applications, especially catalytic converters for internal combustion, engine emissions, as well as their widespread use in jewellery. Saleable by-products produced from PGM mining include gold, copper, nickel and chrome.

Lonmin has a primary listing on the London Stock Exchange and a secondary listing on the Johannesburg Stock Exchange. The Company's operational head office in South Africa, moved from Johannesburg to Marikana with effect from 25 January 2018. The Company also has a registered office in London, United Kingdom.
